## Algorithm to count the no of nodes in ssl

countssl(start)

If start =null

Print list is empty

Exit

End if

Count <- 0

Ptr<-start

Repeat

Count <- count+1

Prt<-link<-ptr

If ptr =null

Exit

End if

Print count

end

23	400
----	-----

200

16	480
----	-----

400

54	null
----	------

480
